ALYANSANG TAPAT SA LASALLISTA

Organization page of Alyansang Tapat sa Lasallista that would allow users to view details regarding the party, post, comment, edit, and register as a user.

FEATURES

General
Good user experience. Visitors can easily navigate without help, all information is easy to access. Good visual design. Design suits the theme of the application, and is cohesive and consistent across the whole application.

View All Posts
Upon visiting the Forum Page, an unregistered user can choose to view 10-15 most recently uploaded posts. The user can see the next set of uploaded posts by scrolling down (auto-load). Clicking the post title allows the user to view the post content, comments, and votes.

View a Post
A user may view any post they have a link to. This will move to another page containing the title, the body, and the comments of the post.

Register as Member/User
An individual may register as a user. Here, a user must enter a first name, last name, email, user name, and password. Being a member has its benefits such as being able to post, comment, and vote.

Login
After registering and now identified as a member, a user may login. The user may start posting, commenting, and voting.

Logout
After a session, the user may logout from their account. This should clear any session-related data.

Post
A registered user may create a post but it must be approved by an admin user before it appears. A post mainly consists of the title and the body of the post. A user must add a post tag to the post as its topic/s. The post will be posted on the page once approved by the admin user.

Comment
A registered user can comment on any post, including their own. They may also reply to another user's comments, and the comments can nest indefinitely.

Edit a post
The owner of the post can edit their posts at any point. The edited will be posted under the approval of the admin.

Like Reaction
A user can upvote a post or a comment (including their own) once.

Dislike Reaction
A user can downvote a post or a comment (including their own) once.

Search Post using Tags
A visitor/user can search for posts by the post tags attached to a post. By entering a search phrase/word, all posts containing the post tag will be shown.

Delete a Post
A user that has created a post has the option of deleting his/her own post.

Edit a Comment
A user can edit his/her own comment from a post.

Delete a Comment
A user can delete his/her own comment from a post.

Remove Reaction
A user can remove his/her like/dislike reaction from a post.

Promote to Admin
A member can be promoted to have admin privileges.

Verify Email
The email that users enter should be verifiable and valid.
